

PRESS RELEASE

Berk-Tek Appoints Will Jensen as President

New Holland, PA –June 19, 2019 – Berk-Tek, a Nexans Company and leading manufacturer of network infrastructure solutions, is pleased to announce Will Jensen as President of Berk-Tek and Vice President and General Manager of Nexans LAN Division North America, effective June 17. He will report to Steven Vermeulen, Nexans Executive Vice President, Telecom and Data Business Group. Jensen succeeds Paul Trunk, who is retiring after 22 years of service with Berk-Tek.

In his new role, Jensen will be responsible for all Sales & Marketing, Operations, Research and Development, Human Resource and Finance functions for the Berk-Tek business unit, which includes both the New Holland, PA and Fuquay-Varina, NC sites.

“It is clear that Will brings the energy and experience to ensure the continued success of Berk-Tek. He understands the needs of our customers and has great vision for growing the LAN business in North America,” states Vermeulen.

Jensen has focused his career dynamically in the Telecommunication & Data industry, having worked for companies such as Corning Cable Systems, Amphenol Corporation and Tensolite in sales, marketing and general management positions. Prior to joining Berk-Tek, Jensen held the position of Vice President and General Manager, RF/Microwave Solutions at Molex Incorporated.

Jensen holds an MBA from Arizona State University and a BA from California State University.

About Berk-Tek, A Nexans Company

Berk-Tek is a premier manufacturer of more than 100 different network infrastructure solutions. For more than 50 years, Berk-Tek has led the industry in the development of high-performance and enhanced fiber optic and copper cables designed to transport high-speed data, voice and power transmissions. Berk-Tek’s world-class research and development teams are dedicated to developing innovative structured cabling solutions that are critically important to managing the demands of today’s emerging technologies. Berk-Tek has manufacturing facilities in New Holland, PA and Fuquay-Varina, NC. For more information, visit www.berktek.com.

About Nexans

Nexans brings energy to life through an extensive range of advanced cabling systems, solutions and innovative services. For over 120 years, Nexans has been providing customers with cutting-edge cabling infrastructure for power and data transmission. Today, beyond cables, the Group advises customers and designs solutions and services that maximize performance and efficiency of their projects in four main business areas: Building & Territories (including utilities, e-mobility), High Voltage & Projects (covering offshore wind farms, submarine interconnections, land high voltage), Telecom & Data (covering data transmission, telecom networks, hyperscale data centers, LAN), and Industry & Solutions (including renewables, transportation, Oil & Gas, automation, and others).

Corporate Social Responsibility is a guiding principle of Nexans’ business activities and internal practices. In 2013 Nexans became the first cable provider to create a Foundation supporting sustainable initiatives bringing access to energy to disadvantaged

communities worldwide. The Group's commitment to developing ethical, sustainable and high-quality cables also drives its active involvement within leading industry associations, including Europacable, the NEMA, ICF or CIGRE to mention a few. Nexans employs nearly 27,000 people with industrial footprint in 34 countries and commercial activities worldwide. In 2018, the Group generated 6.5 billion euros in sales.

Nexans is listed on Euronext Paris, compartment A.
